# Supplemental Regulations

## WeatherTech Raceway LS – Event #3

### June 3 – 5, 2022

### Version 1

| EVENT REGULATIONS       |   |
|-------------------------|---|
| <b>Current Versions</b> | <p>The following are the current Regulations for this Event:</p> <ul style="list-style-type: none"> <li>• 2022 General and Sporting Regulations (Version 22.4)</li> <li>• 2022 Technical Summary Regulations – Porsche (Version 4.7)</li> </ul> <p>Available on <a href="http://www.competentmotorsport.com">www.competentmotorsport.com</a> website (2022 Season/ Regulations)</p>   |
| <b>Rule Amendments</b>  | <p>The sections listed below are rule amendments and/or additions to the current 2022 General and Sporting Rules, and Technical Regulations. We have identified which rules are changes to the existing referenced section or a new section to be added.</p> <p style="background-color: yellow;"><b>For the WeatherTech Raceway Laguna Seca event (June 3<sup>rd</sup> – 5<sup>th</sup>) the <i>Supercup Exhaust System</i> will NOT be allowed on GT3 Cup Platinum cars.</b></p> <p>Section 2.2.3 in the Platinum Technical Regulations has been amended to read:</p> <p><b>2.2.3 Exhaust system</b><br/>           The exhaust system, starting from the manifold, for the Competent Motorsport Yokohama Drivers Cup USA will be OEM as delivered with the rear silencer and parts listed in the valid parts catalogue for the respective car and model year to the version</p> <p>At certain racetracks, to be articulated in the Supplemental Regulations for these specific events, the exhaust system, starting from the manifold, may be modified completely with the parts listed in the valid parts catalogue for the respective Car and Model year to the version “exhaust system without silencer” (general linguistic usage as “Supercup exhaust system”).</p> <p><b>TIRE ALLOCATION – Technical Summary (Section 15.2) and General and Sporting (12.1.2) Regulations:</b><br/>           Tires used during any Official Event session must be the Spec Tire of the Series. Drivers are allowed four (4) sets of Dry Tires for a standard three (3) day event whether you are running in a two (2) or three (3) race event. As a new platform, GT3 Cup 992 cars are allowed six (6) sets of Dry Tires for a standard two (2) race event until further notice. All tires for the event to be used for QUALIFYING and RACE must be STAMPED by the Yokohama authorized distributor at the track. PRACTICE sessions do not require STAMPING; however, all tires must be Yokohama Advan Slicks from the authorized distributor. Tires used in each individual RACE must be the same tires used in the associated QUALIFYING session. If there is in no QUALIFYING session for a RACE, any approved named Spec Tire of the Series may be used. If a tire becomes unsafe;</p> |

|  | <p>driver/team might take it to distributor and purchase a replacement tire to replace the unsafe tire. Prior to tire replacement, the unsafe tires must be taken to the Series Technical Director to get replacement approval. A car replacing only ONE tire after qualification will be allowed to retain its original starting position. A car replacing TWO tires after qualification will be given a 5-grid spot penalty. A car replacing more than two tires after qualification will start at the back of the grid. Any tire purchases above the allotted amount for a given event must be pre-approved by the Series Technical Director.</p> <p><b>No Rule Amendments for WeatherTech Raceway Laguna Seca</b></p> |
| <p><b>Sound Procedure Utilized for the Event</b></p>   | <p>Vehicles that hit or exceed 105db as measured by the WRLS sound monitoring equipment, will be black flagged and immediately removed from the track and cannot complete that session. The competitor is asked to modify the exhaust or sound issue on the vehicle. A 2<sup>nd</sup> sound violation follows the same procedure, a 3<sup>rd</sup> sound violation for the same vehicle excludes the competitor from the remainder of the weekend.</p>  |
| <p><b>Notifications</b></p>  | <p><u>Notice #1 – Liftgates:</u><br/>         For all events it is recommended that liftgates be in the closed position when not in use. When in use, place traffic cones around the parameter with a team member directing traffic as needed. All tractor trailers including the lift gate when open needs to be clear of fire lanes.</p> <p><u>Notice #2 – Technical Summary Regulations Section 9.4 is amended to read:</u><br/> <i>“Wireless (radio, IR, mobile device, or any other method) transmission of telemetry data to or from the car is prohibited other than the video overlay information transmitted via V-box, or other live transmission video coaching devices.”</i></p>                              |
